IDA EXEC. DIR. CHERISSE VICKERS:

Good evening. My name is
Cherisse Vickers, and I'm the
Executive Director of the City of
Newburgh Industrial Development
Agency. Today I am holding this
Public Hearing to allow citizens to
make a statement, for the record,
relating to the involvement of the
Agency with a Proposed Project for the
benefit of 191 Washington Street LLC,
a New York limited liability company,
which I will refer to as the Company.

The Proposed Project consists of the following:

A. (1) The acquisition of a leasehold interest in an approximately 40,000 square foot parcel of land located at 191 Washington Street in the City of Newburgh, (2) the construction of two buildings totaling approximately 70,000 square feet to consist of 12 residential units and commercial spaces, including offices

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 |

and a farm brewery. It's like 70 residential --- 70 residential units and commercial space, including offices, and a farm brewery, and (3) the acquisition and installation therein and thereon of related fixtures, machinery, equipment and other personal property (I collectively refer to as the "Project Facility.")

- B. The granting of certain financial assistance with respect to the Proposed Project, including potential exemptions from certain sales and use taxes, real property taxes, real estate transfer taxes and mortgage recording taxes; and
- C. The lease of the Project Facility to the Company.

I will provide general information on the Agency's general authority and public purpose to provide financial assistance to this Proposed Project. I will then open

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

the comment period to receive comments on either the Proposed Project or the financial assistance contemplated by the Agency.

Legal Authorization and Powers of Agency.

The provisions of Chapter 1030 of Laws of 1969 of New York, constituting Title I of Article 18-A of the General Municipal Law, Chapter 24 of the Consolidated Laws of New York as amended, and Chapter 577 of the 1982 Laws of the State of New York, as amended, codified as Section 913 of said General Municipal Law, authorize the Agency to promote, develop, encourage, and assist in the acquiring, constructing, reconstructing, improving, maintaining and equipping and furnishing of manufacturing, warehousing, research, commercial and industrial facilities, among others.

Purpose of this Public Hearing.

Pursuant to the New York

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

General Municipal Law, prior to the Agency providing any financial assistance of more than \$100,000 to any project, the Agency must hold a public hearing. The proposed financial assistance to be provided by the Agency with respect to this Proposed Project may exceed \$100,000. Therefore, the Agency is holding this public hearing on the nature and location of the Project Facility and the proposed financial assistance.

After consideration of the application received from the 191
Washington Street LLC, the members of the Agency adopted a resolution on November 21st, 2022, authorizing the Executive Director of the Agency to conduct this Public Hearing with respect to the Proposed Project.

I caused notice of this public hearing to be:

A. Mailed on November 30th, 2022, to the chief executive officers

IDA HEARING 12/19/22

of Orange County and the City of

Newburgh Central School District;

- B. Hand delivered on November 29th, 2022, to the Mayor and City Manager of the City of Newburgh;
- C. Published on December 2nd,
 2022, in the Times Herald Record, a
 newspaper of general circulation
 available to the residents of the City
 Newburgh;
- D. Posted on November 29th, 2022, on a public bulletin board located at the City of Newburgh City Hall; and
- C. Posted on November 29th, 2022, on the Agency's website.

If anybody needs a copy of the public hearing notice, let me know.

Now, unless there is any objection, I am going to suggest waiving the full reading of the notice of this Public Hearing, and instead request that the full text of the notice of this Public Hearing be

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

inserted into the record of this public hearing.

The comments received today at this Public Hearing will be presented to members of the Agency at or prior to the meeting at which the Agency will consider whether to approve the undertaking of the Project by the Agency and the granting of the Agency of any financial assistance in excess of \$100,000 with respect to the Project.

Written comments.

We do have written comments.

We had a total of 26 letters that the

Agency received. We would be here for

quite a while if I read all of them.

So, I will read only three.

This is from Genie Abrams.

Dear Friends, I wholeheartedly support the application for a 15-year PILOT for the 191 Washington Street Project.

I am 73 years old and was born and raised in Newburgh, where my father

IDA HEARING 12/19/22

was City Manager in the 1950s.

The project is in Ward 2. I represented Ward 2 on the City Council from 2014 through 2017 and will represent Ward 2 for the Newburgh Urban Farm and Food Initiative in 2023. I walk the Project perimeter in all weather, picking up as much trash as I can and talking to the folks who live on William and Washington Streets as I go.

I mention all this to say that
I know Ward 2 very well. When I was a
child, the Project neighborhood was a
home to a vibrant Jewish community
with two kosher meat markets, a
thriving synagogue, a kosher
delicatessen, and dozens of families
whose children, whose kids went to our
public schools and whose parents work
in those markets and in the other food
stores, gift shops, clothing stores,
ice cream shops, tailor shop,
hairdresser, and barber shops nearby.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

For the past 150 years, the
City has reaped zero taxes from the
ground on which the Property is
proposed, because it was a non-taxpaying school before it turned into
the vacant, trash-riddled eyesore we
see today. How short-sighted it would
be for our IDA to say, "Newburgh will
take in only \$3 million in taxes
during the 15 years of this PILOT, so
let's reject it, thereby killing the
development. Instead, let's continue
bringing in zero tax dollars and zero
jobs to our City."

Today we have a chance to take a bold step into a bright new future for William Street and the entire block of this Project. Since the duty of IDA is to help produce a solid, long-term tax base for our City, I am hopeful that you will greenlight this exciting, game-changing project by granting this PILOT. The sad decline of William Street over the past five

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

decades was due to poor city planning
and not to the people living there.

Please don't let my neighbors down by
missing this opportunity. Sincerely,
Genie Abrams.

The next letter is from Emily Garcia-Otero and Jason Otero.

Dear Ms. Vickers, my husband
Jason Otero and I are the owners of
Art & Anthropology, a Newburgh-based
design studio, and co-founders of
Newburgh Creates, a newly formed
integrated arts program. We are
writing in support of Sisha Ortuzar
and the Cooney family's proposed
development of 191 Washington Street.
We are unable to attend the scheduled
public hearing today; however, Jason
previously shared our support while
attending a hearing in 2021.

In addition to being a local
Latino business owner, we are both
active PTA/PTG members within our
children's NECSD schools and serve as

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

mentors for the NFA Internship
Program. Jason is also an NFA alum
and current Newburgh Arts and Cultural
Commission board member.

Our professional experience with Sisha Ortuzar began as commercial tenants within the Wireworks development on South William Street in 2020. Because of this positive firsthand experience, we believe that the development team for 191 Washington Street will deliver on their aim to renovate and create new spaces that are in harmony with their neighbors and consider everyone involved.

Wireworks' positive co-working environment, shared amenities, and variety of rental options provided the perfect solution for our business to grow within Newburgh and transition into investing in a historic building on Broadway and Carpenter Avenue. As our primary contact, Mr. Ortuzar was

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

responsive to our requests and an avid supporter of building relationships through the community through volunteer opportunities and community events.

At a time when businesses were opening back up, Wireworks provided an invaluable opportunity to connect with other local professionals and community organizations, remain close to our children's schools, and work and shop locally instead of commuting outside of Newburgh.

we are grateful for our experience at Wireworks and fully support the redevelopment of 191
Washington Street by Mr. Ortuzar and the Cooney family. We hope this project will move forward with the assistance of the PILOT program and look forward to the significant residential and commercial benefits this development will bring to the community. Sincerely, Emily

IDA HEARING 12/19/22

Garcia-Otero and Jason Otero.

The last letter I will read.

Dear Cher and the IDA Board. I am

writing to express support for the

proposed development at 191 Washington

Street.

While I am usually skeptical of developers seeking PILOTS for development in Newburgh, Mr. Ortuzar has proven that he is a thoughtful member of our community and has already brought us successful and beautiful gathering space to Newburgh through Wireworks. He regularly donates space in Wireworks (he allowed my arts non profit to do an open call there for our current project free of charge), and also donates his time to other community efforts (he recently sat on an arts council jury with me, as a volunteer, for the bike rack competition, who also met at Wireworks). This is not an outside developer, but rather a generous

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

community member who is willing to
take on a hugely challenging and risky
project to bring long term positive
change to Newburgh. This project
would be transformative for the
neighborhood, expanding past the
expected areas revitalization and
putting an otherwise dark and empty
corner back on the tax rolls.

I also feel that the time period of 15 years and a deduction of \$6 million is relatively reasonable compared to other PILOTS that have been requested in Newburgh in recent years, and with a higher quality design that incorporates commercial and green space.

Thank you for reading and sharing my comments with the IDA Board. I very much hope to see this impressive project move forward. Sincerely, Kelly Schroer and James Holland.

I will invite my chairman,

Marlon Ramos, who would like to read some comments to everyone in attendance today.

BY MR. MARLON RAMOS:

First of all, can you hear me?
UNIDENTIFIED SPEAKER:

Yes.

BY MR. MARLON RAMOS:

I would like to thank all the members of the community that are here, that came out. Trust me, your opinion does matter. As a lifer for Newburgh, it is really important to see when people show up.

I would also like to thank the members of IDA who are volunteering in this duty. It is an important duty. The City needs it. So, thank you, and thank you.

A few things. As these type of projects come up in the City of Newburgh, some thoughts come up for me. So, I feel like I needed to share them in the public forum so that they

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

are out. So, I've been in the IDA for over five years, maybe a little bit longer. I can't remember exactly. It's been a while. But I would say for the first three years, we didn't really see a whole lot of activity.

And frankly, even though maybe the City of Newburgh has some projects, or maybe us, the IDA, may have some projects in the pipeline, we don't have a whole lot of history of success in the City of Newburgh. And what I mean by success, I mean large impactful businesses, maybe entrepreneurs that are coming in here looking for Newburgh as a proving ground, right. Where they can develop and bring jobs, or bring housing, whatever it is that they are looking to develop.

As I travel up and down the Hudson Valley, which I love the Hudson Valley, I see other towns and cities reshaping, and I think we're lagging

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 |

behind. So, I think, and I believe that to make changes for the better, some sacrifices must be made, right. And some of these sacrifices are tough decisions. I personally believe that some of these tough decisions should have been made in Newburgh 15, 20 years ago so that we wouldn't have to be facing them today. But just like anything that you push far enough behind or to the side, at some point, you have to face it, right. So, here we go.

So, sometimes --- not sometimes, actually. When we look to start businesses, people spend tens of thousands of dollars before --- sometimes more, hundreds of thousands of dollars before they even get their first sale. People that go and get an education, they spend tens of thousands of dollars before they cut their first check in whatever career they are looking to embark.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

So, as a community, we also have to take these types of things into consideration. Why does it --- you know, how can we be excluded for things that progress itself costs, you know.

Some things that come up is, for me, while we can look at numbers and reports for projects that come in, there are intangibles too to consider, right. How about, how do we measure a parent knowing that the bus stop is no longer a life threatening endeavor on a daily basis, right. How do you measure that? How do you measure a kid's cognitive development around less crime? How do you do that?

So, if you're a person that thinks some of these projects make sense as they're coming along, I actually think it is your responsibility to come up and voice your opinion. And I do mean responsibility for the betterment of

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22
Newburgh.

I do believe that unraveling
Newburgh's economic problem requires a
diverse approach. So, obviously, that
means affordable housing, right. We
need people to bring jobs. We need to
improve our safety, parks, streets.
We know what we need. We live here.
But what I actually do believe is that
we have to do it. We have to do.

So, we need to show success and we need to show a successful business environment. And when the IDA is involved, we have some ways to make sure the developer delivers on what they are promising.

For locals, I have one final thought, right. And this is maybe in general. So, it is time to start thinking how to take advantage of the situation that is happening, maybe some of the investments coming in, how can we actually be part of it, take advantage of it, as opposed to saying,

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

I am getting caught and staying behind this thing, okay. A lot of you know a person who decided to start a business and maybe is not getting the support locally. So, whenever I'm making decisions, I'm thinking of these people, and I'm thinking of those kids. And that's basically what I wanted to share, some thoughts. Thank you for coming out. What do we have next?

IDA EXEC. DIR. CHERISSE VICKERS:

I will now introduce, Sisha
Ortuzar and Eric Cooney, who will
represent 191 Washington Street and
describe the Proposed Project in
further detail. And again, for those
of you who are new, if you have not
signed in and you wish to comment,
please sign in. Thank you.

BY MR. SISHA ORTUZAR:

Hi. I am Sisha Ortuzar and I am going to be talking a little bit about our project today. And I will

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

be as brief as I can but try to communicate as much as we can. We know that there is a lot of gaps out there in terms of what's known. So, that's what I am going to be attempting to do today.

First of all, I just want to thank everybody who's here tonight. Everybody who is here to speak in support the project, and everybody who is here with concerns about the project. Thank you. I know it is not easy to come out on a cold December night, so we really appreciate that.

BY MR. ERIC COONEY:

And I'm Eric Cooney, Sisha's partner on this project. He is going to be handling the presentation, but I am always available for any follow-up questions whenever. Thank you, everyone, for coming out tonight.

BY MR. SISHA ORTUZAR:

So, when we were preparing for this, Cherisse told us we have an

IDA HEARING 12/19/22

21

22

23

24

25

opportunity to address a group and do a little presentation. I'm not one for PowerPoint presentations, so --although we have one. But I thought that the best way to use our time here is to try to answer some questions. Because we realize, through things we heard, through comments, or through what people are telling us or asking us, is that there are a lot of unanswered questions about this project. And, of course, we take responsibility for that. And we want to start today by telling you a little bit more about the project and hopefully addressing some of those questions. And of course, this is just the first step on that.

So, first of all, just the basics. What is the project. So, for those of you who are not aware, the project is the development of 191 Washington, which is a block between William, Washington, Clark and West

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

Parmenter. Currently, it is just one building that used to be the Washington Street School. And that's been --- that school has been decommissioned for some time. Right now it is just an empty shell basically.

This building is a pretty significant --- historically significant building. It's one of very few examples of mid-century modern architecture in Newburgh, other than the library. I'm not aware of any other really good examples of it. So, that's the --- one part of the project is to renovate this building respecting what is there and preserving as much as we can, which it's in fairly good shape. It was built in a time where, you know, there was --- they were meant to last.

So, the plan on that building is to do residential in the back portion of the building where the

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

19

20

21

22

23

24

25

classrooms used to be. So, there is 12 classrooms there, 12 apartments. And the front part of the building is to be used for commercial space. would be what the auditorium used to The whole project is a mixed-use project, which means we are going to have residential and commercial combined interacting and --- this is not a novel idea. It's how cities are built, right. You have retail, commerce, manufacturing, whatever it is, and the residence above. This is what separates cities from suburbs. So, we really like this idea of mixed use, which is what we've done in Wireworks as well.

So, in what is today the empty lot of the parking lot, we are going to build two new buildings. This is the heaviest lift on this project because new construction is extremely --- it's expensive to do.

This site is specifically more

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

challenging than others because it's on an incline. So we have to deal with the grade changes. And the reason for these two new buildings is because we do believe firmly that Newburgh needs a good amount of new infrastructure. Housing is a big one that's part of that.

And the --- you know, when we set up to do this project, we realized that if we are going to do it, we have to do it in a way that's impactful.

If we were to like break this into little pieces, it's going to take a lot longer than the cumulative time that it takes to do to really have an impact. So, we felt that if we are going to do it, really have an impact on the area, and hopefully kick start some other development, that we do it this way.

At some point, there is the thought of let's just put one big building. We decided, with our design

IDA HEARING 12/19/22

team, to break it into smaller buildings to fit to the scale of the neighborhood, which, you know, that's like a whole other thing that we are going to get into once we go to the ARC. The design of the buildings, it's really referential, and it's scaled with the rest of the neighborhood, even though these are modern structures.

So, we have three buildings in the site. Now, by doing it this way, we create this greenway in between. So there is kind of like a pedestrian street through the project. So, you could be coming from William Street and turn and cut through the greens and go onto Washington. And this is an open for the public green space. It is not going to be fenced in. This is just like a small little urban It's not huge. It's not going park. to have a field for people to play sports or anything like that. It is

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

just for sitting, shade, and just for people to enjoy the other aspects of the project, which we'll get into in a minute.

Here you can see kind of, you know, talking about the challenges of building on a site on grade and how we have to scale down from William Street down to meet to Clark. So there is quite a bit of engineering that is going to go into that. We have a plan there.

You see there is some tables and seating that are going to be for some of the businesses that are part of this complex, but also there will be picnic tables and other tables for everybody to use. So, like I said, we are going to answer some questions, but we figured that we would structure this as an FAQ. Even though we don't have an official FAQ, but this is what we think, from what we are hearing, this is the most common questions.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

By far, the brewery is a big one, right. Like why a brewery. Why do we need another brewery. Who wants another brewery. I'm totally aware of how ridiculous this sounds to do a development and put a brewery in it. But the thing about it is that we never set out to do this. We never had a plan to put a brewery here. The brewery was never an idea. What was really important to us was to find businesses. And there's something very specific and peculiar about this structure.

So, some of you, I'm sure, have been inside of this building. So the front part of it is on Washington.

It's the old auditorium, right. So it has high ceilings, glass all around it. It's a very unique space. It's beautiful, but it's not very practical in terms of what you do with it. You cannot subdivide it. So it has to be something that needs a lot of space.

And it's also a very impressive space that you want to take it.

So then to go back a few years when I was first working in Wireworks, I came across a couple folks, Sylvia and Nate, who are here with us today. They are --- they have other jobs. They are not brewers. They have other careers. But they have done a lot of work in their life to --- they know that what they want to do is to start a brewery. It's a very small --- I think they call it a nano brewery. It's not even a micro brewery. what impressed me when I met them is how compelling their thought process was, how thoughtful their business plan is, how realistic it is, and why they want to do this.

So, through the years, we stayed in touch, and I tried to find them a spot here in Newburgh, which I am going to let them tell you about this, but they decided that Newburgh

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

is the place where they want to open a business. They live in the Bronx currently. So, they decided that Newburgh is the place. So, I tried to find a place. It never worked out because a brewery requires some very specific spacial needs. So, it needs height, the tanks are tall, and it needs a very strong slab floor because the tanks are very heavy. So, it has to be a strong slab without a basement. It's not easy to find that, unless you go and build it from scratch.

So, we showed them this, and they were --- I think they saw it right away, that this was the space. Because not only can it fit their equipment, but it can do it in a way that showcases what they do with the process of manufacturing right in the middle. And that's why we have the brewery.

So, we never wanted a brewery

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

25

specifically. Nothing against one. But they could have been making cookies, or sandpaper, or whatever it But what we knew that we want here is, first of all, somebody who is --- wants to take a risk in Newburgh and spend their life savings and move their family here and open a business in Newburgh. And what's even better is that it's a manufacturing business. It's not just selling little things, or big things, or whatever it is, but it's making things. And to top it off, the fact that it has an interaction with the public. really --- it really hits a lot of spots.

At the end of the day, what's special about them is that they want to be here. They want to do this with us. And to us, that's the most important thing. So, that's why a brewery. Not because we thought we needed one. Although I'm sure there

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

is a lot of data out there, there are stories, they can tell you some, about how a city this size can support several breweries. But that's besides the point. The point is that we want manufacturing here, even if it's a small scale. And we want people who believe in Newburgh.

So, I am going to introduce them to you. I just want you to meet them. Because it's --- this is who they are. They are committed to being here. We're not --- this is not our idea. We are not bringing in some --- even though Nate is a dude with a beard, it is not a dude with a beard type of thing. But anyway --- so, say hello.

BY MR. NATHAN MORI:

Hey, how's it going. I'm

BY MS. SYLVIA MORI:

Born in New Hampshire, raised in Vermont. We met in college 21 years ago, and we have been together ever since then. Brewing for the last ten years together. We are passionate about our relationship like we are with the brewery. So, we are hoping to make this happen. We need your support. I know you have a lot of questions, resistance. You're shaking your head. I know a lot of people have questions. But this is what we are here for.

We bumped into Sisha --- came

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

across Sisha in 2020 during the pandemic. He was looking for a space. I was like, why are you looking for a space when there is a pandemic, like no one is going to drink beer. And he was like, no, we can do this, we can do this. So, we bumped into Sisha, and we looked at Wireworks, which didn't work out, like he said, because the space is too small. And then he told us about 191 Washington, and we looked at it, and it was great.

In addition to that, my family lives in this area. My niece lives in Newburgh. My family lives in Beacon. My uncle lives in Fishkill. So I have family all over this area. My sister lives in Wappingers Falls. So, there is a connection there for me in some way.

I've been in Beacon since 1990, so I always come there. And then Newburgh was always like, oh, don't go to Newburgh. Why not. Because, you

know, there is a stigma behind the space there, the area. So I --- it's a big risk for us. We know what we're getting ourselves into money wise. The area is not the greatest. But we're taking a risk as well. So, we hope you take the risk with us and, you know, support it.

BY MR. NATHAN MORI:

Again, I wanted to just add, we'll be a New York State farm brewery, so it requires us to purchase 60 percent of our ingredients from New York State farms. We will be producing about --- in the first couple years, about 15 jobs. All of the positions will be skilled positions, even servers. So, all of our servers will be trained on the Cicerone program. So they will be educated on beer making, beer ingredients, what makes good beer, how it's made. Those positions will also be kind of first in line to be trained

for assistant brewer positions, canning technicians. Even people that are experienced in social media and marketing. It will offer people places to grow, room to grow within the company.

We'll also --- we will also, when we are financially in the green, offer a social impact program. will be giving back to the community through local charities. And when it comes to like environmental, we'll be practicing the good nature of side streaming, which is taking all of our proteins and particulate matter and side streaming them, and collecting them, and using our spent grains and giving them for free to local farmers. So, there is a lot of good that we are going to try to be doing from operating a local brewery. main goal is to create not a bar or nightclub, but a place that is family friendly and people can come and

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

1 | IDA HEARING 12/19/22

gather and feel safe and enjoy the time with their friends and, you know, enjoy time with friends and loved ones.

BY MS. SYLVIA MORI:

Yeah, for me when I think of a brewery --- and we've done a lot of research. We go to breweries for this reason. Because if we're going to open up a brewery, we need to know what we are competing against. Also, it's an experience. It is not a bar where you go to and go for three hours and drink yourself to oblivion for those three hours and then leave.

A brewery is an experience.

Come with your family. Come try it.

I never had an IPA. What's a pale
ale. Check out the fermentia. Take a
tour. This is not a bar where people
are going to go out there and throw up
and get sick and stumble out of the
bar. A brewery is completely
different. If you've ever been to

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

1 | IDA HEARING 12/19/22

Newburgh, it would be like that. And I've been to Newburgh many times and I've never seen that kind of environment where people are throwing up and, you know, stumbling out of there. So keep that in mind as well.

BY MR. SISHA ORTUZAR:

So, we wanted to put a face to the beer so you know who we're talking about. And sorry, we're not going to take this much time with each question. This was a hot topic, so I wanted to properly go into it.

Sorry, go back. One last thing about this part of the building that's not shown here, but there is an area of this building that faces the muse (ph), the greens, and also faces the brewery. You see where that brick wall is right now, that --- we're going to build and outfit two kitchens there that are going to be --- because, you might be aware of this, they are required by the SLA to serve

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

food. They are not restaurant people. They don't want to be doing that. So, instead, what we are going to do is build these kitchens and offer them to local restaurant operators who might want to use them. Whether it is somebody who already has a restaurant here, or a cart, or food truck, or just a table in the park.

My background is in the restaurant business. I know how hard it is to get in. The price of entry is incredibly unattainable. So, by providing the space, we hope we'll get some people the opportunity to do their thing and maybe they can go to bigger places and whatnot. These food stalls, if you will, they are going to be open to the brewery, to serve the brewery patrons and serve the people on the outside.

This is another question that comes up, why not a food store or something else. And to that we say,

yeah, why not. We have 7,000 square feet of additional commercial space, and we need to fill that. So, we have 7,000 square feet that we need to find a use for. So, if anybody knows of anybody who has a good business plan and wants to do it, we are more than happy to talk to them. That's what we need. That's what we are doing here. To be clear, our business, what we are doing here, we are developers. building this. We are going to manage the community and how it interacts with the larger community. But we are not the ones who are going to --- just like we are not going to be doing the ones doing the brewery, we are not going to be doing the food store, or any other business. So we need business people who have an idea and the wherewithal to make it happen to come here. And it can be from the outside, it could be from the inside. If it is from the inside, it's even

better. Why would we not want that.

This is another one. This is a big one. Why not keep it a school, make it a community center, or something like that. Well, that's not our job. That's the job of government. We are a private entity. We can't bring back the school. has been some thoughts, some ideas about a daycare. You know, a daycare can be a great alternative. It's a great use. If somebody wants to do a daycare business, we would very much like to be talking to them. But keep in mind, when you talk about school, community center, these are either government run things or not-forprofit, and we are neither. I'm not going to sugarcoat the fact that this is a business and these things don't fall within what we can do.

This is a question that we've heard a couple of times. Why do you want the City to fund your project.

Which is why we're here. The answer to that is we don't. We are going to This project is fund this ourselves. projected to cost \$25 million, and we are going to raise that ourselves with a variety of lending options and investments. So, the City is not writing a single check to get this project done. It's on us. are here today to ask for is a PILOT, which is something different. it's related to --- I'm sure by now you're well aware of what a PILOT is. But what we need help with is to be able to build this and open and run it in a way that is actually feasible. And the reason we need that is because the way that taxes are allocated, it's based on an assessment system that is upside-down. So, this building, if we didn't get a PILOT, if we did this project, our tax bill would be \$500,000 on the first year. And then the way these things grow, you could

grow two percent a year. We are about \$700,000 by the year 14. So, even if we wanted to do that, it doesn't work, because I can guarantee that this thing is not going to produce that money.

So, the reason why we need the PILOT is because we are dealing with an assessment that is not --- and this is not meant to be criticism of the assessment process. I know that's another complicated thing. But the way that assessments work is that a building that is the same size next to another one, just because it's new, it's going to be assessed at a much higher price. So, there are buildings in the City of Newburgh that are many times bigger in terms of square footage that are on acres and acres of waterfront land, you can figure out what I am talking about, that are assessed at a third of what this is. So, this would be the highest

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

assessment of any project in the City of Newburgh. So, since the taxes are based on an assessment, that's why we have to ask for this, because that doesn't work.

So, we are not asking you to do this. We are not asking you to write a check. We're asking you to help us with this mechanism that exists to deal with this assessment issue.

So then a follow-up question to that. We've been talking about the taxes, right. Why should other taxpayers pay for our taxes. And the reality is it's way more complicated than that. It doesn't work like that. So, the full tax responsibility of this project over a period of 15 years would be about \$8 million, all right. So, if we build this and we run it for 15 years, the City will collect about \$8 million in taxes.

What we are asking here today is with our PILOT, we will be paying

Which, by

1

IDA HEARING 12/19/22

the way, this is a property that's

over \$3 million in taxes.

21

22

23

24

25

never been on the tax roll for over 150 years. So we will be contributing \$3.1 million. So, the delta of that five-and-a-half million dollars that is --- that's what it takes to get to the eight-and-a-half, we can't pay it. So, that five-and-a-half million dollars doesn't get passed on automatically to you and then you guys have to write a check for five-and-a-half. It doesn't work like The way it works is that when a that. building like this, a project like this is developed, there are needs, right, there are infrastructure needs, and the City has to pay for that, and you do that through taxes.

So, you have to then take the leap of faith that we're asking you to do, You know, and think that is \$3 million not a enough for whatever extra resources this is going to take

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

from the City. And mind you, the resources we're talking about is really police and fire. We don't need any roads. We don't need a new sewer system. We are actually going to contribute to the infrastructure by doing new sidewalks and probably a few manholes on the street. So really, the excess and expenses to the City is that. So think about those numbers. And so, the five-and-a-half, again, it only comes if you accept the fact that this should be assessed at what it is as the most expensive building in all of Newburgh.

Why not affordable housing, or what about affordable housing. So, we are big believers in affordable housing. Wireworks is 100 percent affordable housing. We think it's a very important component of a city like this. But we think it's one component. It needs --- in a city like this to thrive, it needs to have

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

a balance of different things. You cannot build a city of only affordable housing. So, a certain number of market rate housing needs to exist.

The more market rate housing there is, the less pressure on the affordable housing. So, that's the first part of that.

25

Then the second part is like, we're not opposed to figuring out a way to include some component of affordable housing into this project. But the thing you have to understand about affordable housing, it's all about math, right. It's not whether you want to do it or not, it has to work. So, every affordable housing project out there is subsidized one way or another. So, it's either you're getting low income tax credits, which is not something that's available to a developer like us. have to be in the league of attorneys It's not us, right. (ph). Like

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

that's not disparaging what they do, but that's a different approach to developing. It's just building boxes and --- what we're doing is something that's a little bit different that doesn't fit into that.

Another option for affordable housing is something called the small business participation loan program. This project is too big for that. So we are kind of in this middle area in which the only option is to do something in which, you know, if we can come to terms with the idea in the City and figure out a way to provide some affordable housing, we just need to figure out how to pay for it. That's what I'm going for.

So, we're for it, we just --the math has to work. This is not
your problem. This is ours. But I'm
telling you, and I know that everybody
tells you the same thing, but I think
these guys can attest to it because

IDA HEARING 12/19/22

they see the numbers, this is a very thin margins project. We're doing this because we believe in Newburgh and it is a bit of a passion project. We could probably take our money and put it in bonds, or something else, and make a way better return. So, there is not a lot of money here to work with. So, we're not opposed to it, we just got to work it through.

So who is this for? Is this for the people in Newburgh? Is this for the community? The answer is this is for whoever wants it. It doesn't have to be for everybody, because not everything has to be for everybody. There are things in Newburgh that I support that's good for economic development that I don't think are for But that's okay. The waterfront me. has great restaurants and bars. just don't --- you know, that's not my vibe. But that's okay. I'm glad that we have the waterfront. It attracts

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

the sitters (pg) and dollars and sales taxes and all those things. But what I'm going towards is just because this is not for everybody, it doesn't mean that it shouldn't happen. So, who is this for, it's for anybody who wants to live here, who wants to work here, who wants to get a pupusa here, who wants to get a beer, who wants to sit on the bench. And if it's not for you, that's fine. There is other things for you to do.

So the jobs, are these jobs going to be for the people of Newburgh, are you going to go outside and hire. We know where this is coming from because there are some things that might make you think that. But first of all, this project is in the middle of Newburgh. Why would we want to bring people from the outside of Newburgh. Aside from the fact that we don't want that and we want to work with the City and the IDA to do

IDA HEARING 12/19/22

anything that we legally can to make sure that these jobs go to the people in Newburgh, mind you, we cannot discriminate based on where you live, among other things.

So, aside from that, think about the practicality of it. We are in the middle of a city full of workforce. If we can hire somebody that lives three or four blocks from here and get to work walking and not rely on the non-existing public transportation, or very weak public transportation that we have here. sorry, I hope I didn't offend anybody here with that. But why would we want to go and hire somebody who is like from three towns over who is going to have a hard time getting here when it snows or when their car breaks. Yeah, these jobs are for the people in Newburgh if the people of Newburgh want them. Of course.

So, why should you trust us.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

You shouldn't. You shouldn't trust us because of anything we say here because, of course, I can say anything. But we could sit here and do presentations about the work that we've done, and this and that. you know, we prefer to let the work speak for itself. Or if others speak about the work that we do, I think that that carries a lot more weight than if I stand up here and tell you how good we are. So, do your homework. If you want to trust us, then great. If not, I respect that.

What happens if we don't get the PILOT? Life goes on. It's not the end of the world. Of course we want to get this PILOT. Without this PILOT, we can't build this. Let me make sure that that's clear. If we don't get the PILOT, we can't even get this thing financed. So, even if we wanted to, it just doesn't happen.

So if that doesn't happen, we

IDA HEARING 12/19/22

23

24

25

will have what we have today, which is the building will stay as it is. is likely going to be used for storage. And the parking lot will likely be used as parking lot for however long it takes for either the assessment system to change or interest rates to come significantly Until a point in which we could make the project happen without a PILOT. But if we don't get it --mind you, we own the property, so it's not like --- it's going to stay on the tax roll, but at a much lower level than if we do the PILOT and it goes in as a meaningful contributor to the tax roll. As far as what are we going to do, we'll just figure out what else to It's not --- at the end of the do. day, if Newburgh doesn't want this, we'll just have to accept that and move on.

And that's it. Sorry if it was longwinded.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

IDA EXEC. DIR. CHERISSE VICKERS:

Thank you. We are going to now ask Michael N'dolo from MRB Group. He represents the private consultant, or the independent consultant that the IDA hired to do the test of reasonableness and the cost benefit analysis that you can find on our website that goes over the project. I'll leave it to Michael.

BY MR. MICHAEL N'DOLO:

It looks like the technology actually worked, which is great. I'm Michael N'dolo from MRB Group. My company works almost exclusively with public sector clients. Cities, towns, villages, you name it, counties. And we do municipal consulting. The bulk of it is engineering and architecture, and I will introduce the company a little bit more. But I just want to start off by saying that my perspective --- I'm not working for the developer. I'm working for you,

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

the public; for you, the IDA board; for you, the City. And to give you financial perspective about some of the things that you just heard from the developer, but we did our own independent analysis to arrive there.

So, like I said, the company has been around for almost 100 years now. The SmarterLocalGov division that I work for has been around since 2010. We have about 25 people through all of upstate New York and all the different communities. And we, amongst other things, support community planning and economic development.

Not to pat myself on the back, but I've done a lot of these studies, right. I just want to say, I've looked at just about every different type of project that you can look at from the highest tech, to affordable housing, to community projects, to policy decisions, to anything that you

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

can imagine that could be studied. I think I'm up to about 400 studies now.

So, the two analyses that I'm going to talk about are going to sound similar, but there is a distinction.

One is the test of reasonableness findings, and the second is the cost benefit analysis.

The test of reasonableness
we'll start with. What is it? The
test is looking at whether or not the
incentive that the developer is
looking for is needed for the project
to be successful. And to say,
conversely, is the assessment too
generous. We're asking that question.
We want the inducement to be necessary
and to be no more than what is
necessary, right.

How do we do that test? We look at two things in particular. And there is a lot more to it than this. But there is the two main things we look at, the debt service coverage

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

ratio and the internal rate of return. The debt service coverage ratio is important because the developer is going to need to get bank financing for most of the project, right.

They're going to put money in as well. But most of it is going to come from the bank. And what does the bank want, they want their money back, right. So the debt service coverage ratio tells the bank how likely is it that are you going to get your money back.

The second one is internal rate of return. And that is, will the developer make a market adjusted return on their equity. So that's the framework --- I'm sorry, this is appearing very small. Can you guys read the slides? More or less, okay.

So, how do we conduct it? We look at a number of things. We asked them for their financials. We took a look at all of that. We looked at

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

where are they getting their capital from. What are the terms of that financing, and equity, and other things. What are the conditions on that. How much is it going to cost to construct. What are their other costs, things like architecture and engineering, carrying costs, contingencies, and so on like that.

Once it's built, what are they going to get in rents, what is their operating expenses going to be, and what are they going to get --- and obviously we are talking about a PILOT tonight. What's their tax situation, assuming the PILOT is approved.

And then finally, what does that translate to cash flow. Because remember, cash flow is going to provide the debt service requirement for the bank and the return for the developer.

So, we took their financial information, we took the projections

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

15

16

17

18

19

20

21

22

23

24

25

that are out there, and we looked at it and said, okay, are these assumptions right, would we make the same assumptions. We look at the interest rate. We looked at some other conditions of financing, like loan to value, the capitalization That's the rate that's used if rate. they were to sell it in the future, what would they sell it for approximately in the future, was that a reasonable rate. How long the amortization period is on their lending. And again, like I said, the debt service coverage ration.

The last point is the equity dividend rate. And that's, in the market right now, what are developers getting for their money, right. And that fluctuates quite a bit depending on what the type of project is and also the interest rate environment and other things around the real estate market.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

1 |

the IDA.

So, we benchmarked all of those things. On top of that --benchmarking means we compared their information to what we know about the market. In addition, we looked at other assumptions, rental prices in particular, operating expense ratios.

Escalation factors, and their construction budget, what the incentives that they are asking for

IDA HEARING 12/19/22

So, we actually did this analysis twice. We did it once in August of 2022 on their original application. And since that time, their application has been amended, a number of changes have happened, a number of changes to the assumptions. I list them out there. So, we conducted a second analysis to verify our findings in October of 2022. The slight change to the assumed assessment. They had to change their financing structure because it wasn't

likely that they were going to get financing under the original capital stack, a small change in project cost, and a relatively small change to the abatement schedule they were proposing for the PILOT. So, we're almost done with the test.

Just hold on for a second. We did compare --- we did all of this analysis, and then we looked at what are the equity dividend rates out there. They range from about six percent to about 14 percent. So, it's a wide range. And the average is about ten-and-a-half percent. looked at their return on equity based on their financials, right. The money they have to put in and the money they get out of it. And so, our conclusion is that the required assistance --the requested assistance, rather, which is the sales tax exemption, the mortgage recording tax exemption, and the PILOT abatement that they are

IDA HEARING 12/19/22

requesting, as amended, provides the developer a reasonable, but not excessive, right, a reasonable return, and the debt service coverage ratio is adequate for financing, okay. So, in sum, we said that this deal appears to be fair and that a bank would be willing to do the deal. So that's it for the test.

The cost benefit analysis is now looking at what do you get, what are you giving up. That's from the community's point of view. Assuming that this is a deal that needs to be done, what do you get from it. had --- this is another one where we have to make a bunch of assumptions and we have to look at it. Again, I apologize for how small this is appearing. I will read out some of the numbers as we go here. We have an estimate of local construction spending. And this is at the county level. We said 25 percent would be

IDA HEARING 12/19/22

spent locally. Locally being the county. That's during the construction period. However, during the operation period, over the 15 years, you get a lot of additional spending. The spending comes both from on-site employment, that's the employment at the brewery, assuming that happens, and the other retail establishments. But you also get a bunch of economic impact related to spending from the new households. you expand your resident population, you have more household spending and, therefore, there are some jobs associated with that.

So, what the tables say --- and again, it's very hard to read. During the construction period, we would assume 41 local jobs on site. And then due to this economic multiplier, I'm sure a lot of people have heard about it, which is the spending that happens between businesses, you get a

IDA HEARING 12/19/22

20

21

22

23

24

25

few extra jobs. So, we're estimating roughly 53 jobs during the construction period. During the operations, that 15-year period that we're looking at, we have 35 jobs on site. That's the commercial establishments and the effects of the new household spending. Plus 33 indirect jobs, these multiplier jobs. This is when a business buys from another business in the City, or one of the people working here goes out and buys groceries, goes to the There is doctor, or whatever it is. additional dollars of spending. total of 47 jobs over the 15-year period making about \$2.8 million. those are the economic benefits from the project.

An even harder table to read is the proposed PILOT schedule. But as you can see, the PILOT schedule phases in over the 15 years. By year 15, we are at 100 percent.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

23

24

25

We will note the property has historically been tax exempt, right. So, it hasn't produced any property tax to date. The PILOT abatement would allow for the payment of \$3.1 million of tax over the 15 years, right. So, roughly on average, roughly \$200,000 a year. That is money that the City is not currently --- City and school district, of course, are not currently getting. do calculate the cost, but I want to caution everyone about what this cost The cost is \$5.5 million. means. That is the amount of the abatement. And the reason why I caution people to think about cost is this money is not out there, right. It's not like you're going to get this money. This is only the money that is being abated, right. If we assume that the project does not happen, if they don't get the abatement, then there is no \$5.5 million that's being foregone,

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

right. Does that make sense?

So, the fiscal benefits we have on the table to the left, we have a little bit of construction spending that generates a little bit of sales tax. But most of it is during operations. You get some operational period sales tax, and you get some operational period retail sales tax, and then most of you come to the property tax revenue. So, the total tax revenue coming off the project over the 15 years is about \$6.3 million.

The exemptions, you have the sales tax exemption on construction materials, the mortgage recording tax exemption, and the PILOT exemption.

And that totals a little bit over \$6 million of total exemptions. Of that, 5.5 is the property tax exemption. But keep in mind, it's not like this money is out there that you are going to get that this is taking

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

1 | IDA HEARING 12/19/22

away. This is the amount of the abatement, right. Full tax versus abated tax. So, this is not coming out of anybody's pocket. This is the amount of the proposed abatement.

And this is a summary table with unfortunately even smaller numbers. And what it shows is that you have a tax benefit to tax cost of roughly one to one. It's .99, but one to one. But if you add in all of the other benefits, the wages being paid, and all the other things that are happening, you're at about a nine to one ratio. So, that is the cost benefit. And I believe that's the last slide.

IDA EXEC. DIR. CHERISSE VICKERS:

Thank you. So, now the part that everyone is here for. I will now open this public hearing for public comment at 6:33 p.m. By way of operating rules, I will call on those who have signed up on the sheet. If

IDA HEARING 12/19/22

you wish to sign up, and you have not, now is your opportunity.

Let me read a few of the rules that we are going to go by in this period. Please keep your comments to let's say three to five minutes each so that way all those who are present today may have a chance to comment for the record. If your comments mirror those of someone who has already spoken, you may wish to indicate them and relinquish the podium to another speaker so that all views represented at this hearing maybe heard.

When everyone has had the opportunity to speak, I will conclude this Public Hearing. A record of this public hearing will be prepared and reviewed by members of the Agency in connection with the Agency's consideration of the Proposed Project.

Again, the purpose of this

Public Hearing is to solicit public

comment. We are not here to answer

IDA HEARING 12/19/22

questions; however, we will, in the course of this public hearing, consider questions if we have the information to answer the questions and there is sufficient time to consider such questions.

I will now ask if there is anyone in attendance who wishes to comment on either the nature of the location of the Project Facility or the proposed "financial assistance" being contemplated by the Agency with respect to the Proposed Project.

For the record, please state your name and indicate your comments on either the Proposed Project or the proposed "financial assistance" being contemplated by the Agency. As a courtesy, we are going to call on any elected public officials to comment first. And Marlon will handle this part of the hearing.

BY MR. MARLON RAMOS:

The first, Anthony Grice.

BY COUNCILMAN ANTHONY GRICE:

Thank you. So, Anthony Grice, councilman at large for the City of Newburgh. I first want to state, so that it's clear, that I support this project. So, I want to thank the IDA for the job that they have been doing and are doing. I want to thank MRB. Very great report. I want to thank Sisha. We have had some friendly conversations and just recently we had some intense conversations. But when I have those intense conversations, it's because I'm trying to look out for the best interest of the City of Newburgh residents. I believe this project does that.

I just want to clarify that, you know, Sisha and I are not on the same page when it comes to assessment

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

15

16

17

18

19

20

21

22

23

24

25

and what he's comparing that to. he's very well aware of that. When we give this PILOT, that won't matter, because the amount that he will be paying in taxes, it's just going to stay at that steady rate of whatever is agreed in that PILOT.

And then I just want to state or --- because a lot of people come to us --- let me go back. The City Council does not make this decision. This is an IDA decision. They are their own board. They have their own rules. So, this is the decision that they will be making. A very tough decision. And whatever decision you make, I will respect. But for property taxes and a PILOT, the way it works is that we actually subsidize Even though it's not that money that. that's coming, we absolutely --because when a project is happening, we don't give them 50 percent or 20 percent of the services, we give

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

21

22

23

24

25

them the full services. And the way you reduce property taxes, I've said it several times, so some of you might have heard it before, is you put more full paying property taxes on the tax rolls, you find other revenue streams, and you make sure the departments are working efficiently, and you have strong fiscal management. And really that's it. So, if we are going to subsidize this project, which I think we should, we should go into it realizing that that's what we're So, we absolutely should have doing. some community benefit, such as some retail, and some food things in there as well, and some other things.

The other alternative, because other people will say about development, the other alternative is that if we don't, we are going to have a warehouse with a parking lot and it's going to be a blight on our community. So -- how much time do I

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

have?

BY MR. MARLON RAMOS:

About two minutes.

BY COUNCILMAN ANTHONY GRICE:

Two minutes, thank you. And so I just want to go --- because this is very personal for me. So, when I was a young child, all the way up until a teenager, my grandfather owned a barber shop right there on South Johnson Street, you know. So, I was in that neighborhood a lot. I walked up and down that neighborhood. I walked up to the bakery and would bring him back the buttered rolls and things like that. When I was little, I was a Head Start kid. Head Start was in that building.

And then when I did work for this district in the Grants

Department, I wrote a UPK grant, a

Universal Pre K grant. It was with that building in mind. So, I know that building. I know that

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

neighborhood very intimately. I really believe that this is the type of project that we need to have in that neighborhood to revitalize it.

And one more thing. Because everybody knows I'm a proponent for affordable housing. I understand that this does not have that. I wish it did. But when you look at the numbers, it really really just doesn't work for that. And there are other things --- and I am here guaranteeing you that there are other ways that we could put affordable housing in and around those areas. But we do --- I think, as Sisha mentioned, we do need to have some income housing.

My final point is this has mixed use as well. That is a big risk for any developer to take. And so, I applaud you for what you're doing, and this board, and I will end at that.

BY MR. MARLON RAMOS:

Thank you. We are going to

have Genesis Ramos.

IDA HEARING 12/19/22

BY MS. GENESIS RAMOS:

Good evening, everyone. name is Genesis Ramos. I'm a lifelong resident of the City of Newburgh. am an Orange County Legislator. And I very proudly represent parts of the City and Town of Newburgh. I want to start off by saying that I fully support this project. I also want to make that clear. You know, this is very --- I always talk about the humanity when we talk about politics and government and government work because I think oftentimes that's a mark that gets missed in all of these conversations. So, I want to start by saying to the folks that are skeptical, you have the right to be skeptical, and I understand that personally. Because honestly, the understanding that I've come to with economic development has been one that has come back in the last probably two

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

to three years of my life. But it's also because I've taken it upon myself to really try to understand the nuances of what it takes to make a community like ours vibrant. And a community like ours that can really be for everyone, right.

Because I don't know about all of you, but as someone who was born and raised here, has walked on those streets, used to go to the now demolished building across the street from the school that used to be a papusa when I was a kid, right, I would like to see that corner be brought back to life. And I would like to see it be brought to life in a way that's responsive to the diverse needs of our community.

I also want like to bring to everyone's attention, that may or may not be aware, there are other housing developments coming to our community.

We have the two Kearny (ph) projects,

2 3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

IDA HEARING 12/19/22

Colden Street project, Montgomery Street projects, both mixed income housing. And then we have another project through the Newburgh Ministry that's in the work, 50 micro units, fully affordable housing on Johnston Street. So, there are other housing developments coming down in our community that address both affordable housing and market rate housing. feel that that's the only way that we could go at this point in time in our community. We have to address all levels of housing needs in our community.

And I don't know about all of you, but I want the people that are going to come and invest their hardearned money into our community, that they are people that believe in our community and that are here for the right reasons. Because I also really just want to validate the historical context behind the distrust that

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

exists in our community. And I also think that a lot of this comes from the unknown, and the fear, right, and the fact that a lot of times folks ask, well, what about the people that have been here. And I fully agree with that, which is exactly why we need to have mixed income approaches to economic development and mixed use approaches to economic development as we move forward and really talk about the progression of our city.

I drive around these streets
every single day of my life and I take
great pride in them, potholes and all.
But you know what, I can't wait for
the day that I don't have to drive on
hundreds of potholes every day of my
life in our community. We all want
the same things. We want better
streets, better parks. We want all of
our City services to be rendered in
ways that are responsible and in ways
that really impact us all positively.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

1 | IDA HEARING 12/19/22

I know I want that. The park that I grew up going to is pretty desolate right now. I want to see that park come to life. But we need to diversify our revenue streams in this community to be able to address the things that we are all so passionate about.

And so, I'm not here to tell you to trust the developers, whether it's, no offense, you or anyone that comes into our community. Because we should hold every single developer --- we really should hold them responsible and hold them to their word, right. We should.

I also want to just say, in terms of community benefits, I really am looking forward to seeing how the IDA truly holds accountability to this project, or any project that you choose to incentivize in the future because I don't just want to hear lip service about how these jobs are going

to be for local resid

to be for local residents. I want to see a plan for that, and I want to see that really come fruition.

IDA HEARING 12/19/22

I also --- with construction, are these going to be creating jobs? You know, that's another thing I want to know. Are the construction jobs going to be union jobs, and are we guaranteeing that those jobs are also going to be local. So these are things that when we think about community benefit within these projects, I'm not just thinking about, you know, the here and now and how do we build it, and how the jobs may come from a commercial space, but I'm also thinking about 10 to 15 years from now and what a project like this can do amongst other projects that are coming in the next two to three years in our community. What it can really do for our revenue, for the future of our community. And addressing the fact that we desperately need to develop

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22 1 2 more housing in this City. We have a 3 serious housing crisis that's being 4 exacerbated by many many factors. 5 It's not just one thing. But the bottom line is ---6 BY MR. MARLON RAMOS: 7 That's five minutes. 8 9 BY MS. GENESIS RAMOS: 10 -- we need more development. 11 Thank you. BY MR. MARLON RAMOS: 12 13 Thank you. Ramona Monteverde. BY MS. RAMONA MONTEVERDE: 14 15 Good evening, everybody. It's great to see everybody coming out to 16 17 learn about this project. My name is Ramona Monteverde. I'm the council 18 19 ward rep for Ward 2. And that is 20 exactly where this project is going. 21 And I too support this project. 22 So, there is not much to say 23 after Genesis. I'm in 100 percent 24 agreement about what she talked about

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

in terms of economic development.

25

IDA HEARING 12/19/22

17

18

19

20

21

22

23

24

25

know, we've been hearing a lot lately --- the council members have been hearing a lot about economic development in the City of Newburgh. You know, it's sort of lacking, and we need to get creative and start doing whatever we can to support it. have to bring development into the City. For a long time --- and I think former Councilwoman Genie Abrams said it in her letter, you know, let's not be shortsighted. For many years, the City of Newburgh has been shortsighted with development projects that have come before the council and possibly the IDA.

I support this project because of where it is. And this school, right, this school has never been, as they mentioned, on their tax rolls. Has never paid taxes. I support the PILOT, the 15-year PILOT. I love your vision. I love what you plan to do in that area. This will jump start that

IDA HEARING 12/19/22

area and, you know, again, bring economic development to an area that's extremely depressed. There's --- in that neighborhood of William street, we have Habitat. I know that we have a couple of other projects that Genesis mentioned in the pipeline, like the Kearny projects. So, there is no reason why we can't support market rate. There has to be a balance. Everything that comes before us can't always be affordable housing. And I support affordable housing 100 percent. It's my career. That's what I do, affordable housing.

So, I hope that people come out and they support this. I would love to see this project kick off and get the support that they need. I hope that you get the financing. I know that it's very tight. I appreciate the fact that you went over the numbers with us to see how it actually works. Because I know the history in

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

1 | IDA HEARING 12/19/22

the City of Newburgh has always been, you know, well, we've rolled over, we've given developers what they wanted.

We have been, you know, screwed in the past. And I know that people are a little, you know, concerned about PILOTs when we talk about PILOTs. But I think we are doing this smart. We're thinking about it. We are being smart about it, you know. And we have to start somewhere. So I want to say, start here with this project. Thank you.

BY MR. MARLON RAMOS:

Thank you. Now Giselle Martinez.

BY MS. GISELLE MARTINEZ:

Good afternoon --- well, good evening, everyone. I can't even tell the time because it's so dark outside. But my name is Giselle Martinez. I am the City of Newburgh council member for Ward 1. I'm actually an alum from

IDA HEARING 12/19/22

the Pre K center. I am really sad to see that the school, you know, is at where it's at right now, but I'm actually really hopeful for this new project.

With that being said, I am in full support of this project. There are a few things that I wanted to address as to why. I am in total agreement that our city needs to be balanced. As much as I would like to have more affordable housing in our city because we need it and we are in a housing crisis, the reality is that it can't all be affordable housing, and we need to address all levels of housing, like my colleagues before me said.

With that, I am also going to emphasize the need to expand our tax space. Our tax space, as of now, it's just not enough. We need more. And any type of economic development, especially when it's not displacing

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

anyone, is needed. I'm going to be really honest. I really appreciate the presentation given earlier because, you know, with my experience, I have not had the best experiences with developers. Our city has not had the best experience with developers. And each project is unique and different. And so I do --- you know, since I have been in this position, I've been able to see the other side and see how much our city is in need of, you know, a variety of different things.

So, looking at this individual project --- I don't like PILOTs, I really don't. And I wish we didn't --- I don't like them. But I also saw the numbers. I see the need for it. And I see the vision of what this project is going bring to our community.

With that being said, I am advocating for community benefits

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

22

23

24

25

specifically asking that these jobs go to Newburgh residents. My numbers might be a little skewed, but the last time I had done my research, only 13 percent of people in Newburgh actually work in Newburgh. So, much like it was stated earlier, if we could have people from the City of Newburgh that live a few blocks come and do work, whether it's construction, whether it's the different variety of skills that are needed, I would sincerely ask that you take that into consideration. As well as asking that, you know, if there is a different plan --- I'm going to be honest, I'm also not a fan of the brewery. But I will be visiting if that is the final business plan.

I do think that a lot of the mistrust comes from people feeling that these projects do not belong to us, to our community. And I'm going to be honest, I was that person as

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

1 | IDA HEARING 12/19/22

23

24

25

well. A lot of the projects, a lot of the mistrusts I felt like these are not for City of Newburgh residents, but you have to really start accepting the nice things. We deserve nice things in our community. And this is one of the nice things that we get.

And just one other thing. know that you won't be answering questions, but I am a little concerned about the parking. I know that street is a little narrow, and we already have like a little bit of a parking issue. So, I do want to just talk a little bit more about how that's going to be addressed. But other than that, I am in support. And I understand why this has to happen. And again, I really just want to see our city flourish. And we need more development. Especially, again, when it's not displacing anyone. you.

BY MR. MARLON RAMOS:

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

Thank you so much. Ismail
Rapea. 169 West Parmenter Street.
Okay.

Nick Valentine.

UNIDENTIFIED SPEAKER:

Nick will send in his comments.

BY MR. MARLON RAMOS:

Thank you to everybody who is staying, by the way. Then we have Doug Yaun.

BY MR. DOUGLAS YAUN:

Hello, everyone. I'm Douglas
Yaun, 6 Park Place. I just would like
to say a few things. It is extremely
important to diversify our tax base
and also attract people to Newburgh to
support our tourism economy, with its
largest asset, the largest contiguous
district in New York State and all its
diversity through this adaptive reuse.
I look forward to seeing your
complementary architecture when
presenting to the ARC in your
potential future.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

I am aware this project is asking for more of a PILOT because of the costs of borrowing for construction are much higher. This building never contributed to the tax base in the past, and we need more projects like this one. Thank you.

BY MR. MARLON RAMOS:

Thank you, Douglas. Ray Harvey.

BY MR. RAY HARVEY:

Good afternoon, everyone. My name is Ray Harvey. I live on Carpenter Avenue. I'm for the supporting of this project. When I heard the project was coming, I sought after the people that was doing the project because I had questions about this project. And one of my questions was about the parking. That was --- and the research that they did, I think it satisfied the parking issue that I felt would come up. And also about the jobs that it was creating.

IDA HEARING 12/19/22

And make sure that it was going to the local folks that's been left behind.

Because we had in-depth conversation about why this mistrust is real in our community. Because this community has gotten burned. And it's time to change that.

And I think, when you look at this project, and look at the folks behind the project --- because that's who you need to look at is the folks behind the project, these folks is available for us to reach out and talk to and make sure that the project is being done the way the project should be done. And so I'm --- I know a lot of people want to talk about affordable housing. You know I'm for that. But again, we can't only build affordable housing. We can't. But I also know that by putting this property back --- putting it on the payroll, tax payroll that it has never been, it will definitely be a shame to

Hi. I'm Maggie Mehr. I live in the Town of Newburgh, actually, but I do keep Newburgh beautiful. So we pick up trash for the past couple of In summer mostly. Above years. 40 degrees. Almost everybody has already said what I wanted to say, so I'm not going to repeat it. Very encouraged about how positive everyone is about it. I like what everyone has said about the tax rolls. We need middle class. We need people to come and live here and shop here and want to have businesses here.

And, you know, that's an area that we have picked up trash, you know, often. That's an area that's --- that's one of our areas that I call the hidden areas, or the forgotten areas. And we've concentrated on it a lot, and it's really --- I really love this idea, and I really hope that it works out.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

And I hope that the community can support it because we absolutely --- I have lived here for 32 years. know most of you have lived here longer than that. But I'm always like, why can't we do something like It's really good to hear this. everyone be so supportive of it. Ιt seems like sort of the perfect --nothing is perfect. Everything is difficult. There is nothing that we can do here that's not going to take a ton of work, but I am 100 percent behind it. And I appreciate everyone's thoughts. I feel very encouraged. Thanks.

Thank you. Johanna Yaun.

BY MS. JOHANNA YAUN:

Good evening, everyone. I'm

Johanna, I live on Park Place, and I'm

a lifelong resident. I didn't go to

Washington Street School. I went to

North High. But my brother went to

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

Washington school when it was an experimental middle school for a short time in the '90s. I'm sure that he and a lot of his friends --- unfortunately, so many of them have moved out of Newburgh. That time period, the '90s, was a tough time and not a lot of people stayed around. But I'm sure they would be happy to see this having a new life.

I won't speak to all the economics of things because it's been belabored her. But I will add that adaptive reuse is a wonderful method of historic preservation that we need more of in this city. Adaptive reuse is great for many reasons. First of all, it saves buildings like this one from the landfill. It provides 50 percent more jobs to local people. If you're doing new construction, obviously, a lot of that can be outsourced to other parts of the country, or even other countries, you

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

for those reasons.

know, not in the U.S. So, it's good

It also pays more for the craftsman because it's a lot of custom work that has to be done on the buildings when you're restoring them.

And it also contributes to the overall look of our city. It keeps the historic nature of the streets in that neighborhood.

So, for all of those reasons, I think this is a great project. And we have to think a lot more about our big public spaces. Our factories, how are we going to reuse them, our churches, and our schools. I wish that they had come along ten years ago and saved the Balmville School, for instance. We have lost some of our schools. We have Liberty Street School getting restored right now. Those kinds of big spaces, schools and churches particularly, I think this is a great new purpose for it. Thank you.

and activated nine vacant distressed buildings since 2016. I have three more projects that are each approximately 30 to 40 percent complete, and I continue the hard work to preserve and restore them as I have others. Covid has taken a toll on my businesses, my projects, and my schedules. Let alone the shortages, delays, and inflation pressures of construction materials. When I tell you that this project needs support, this project, of a PILOT, I speak from experience.

I've written some bullet points for why I feel this board should approve this PILOT in full. property has been off the tax rolls for 142 years. This property will generate \$50,000 annually from the beginning. This project will preserve an important example of mid-century architecture which will add historical value to Newburgh's impressive

IDA HEARING 12/19/22 to this city.

Eric Cooney and Sisha Ortuzar have proven themselves worthy of the City's backing. They have definitely earned mine. There will be ten onsite parking spaces underground for ADA and residents with reduced mobility, seniors, et cetera. A parking study was performed which found there was more than sufficient street parking to support this project. The Zoning Board of Appeals has accepted the engineer's study and granted the requested variance. More apartments will lower the prices of other apartment units based on supply and demand. As the supply of new apartments increases, the prices of existing units will decrease. Newburgh needs market rate housing.

When you drive past the green hills overlooking the Hudson or vacant

lots that are scattered throughout the

city, you have to ask yourself why

IDA HEARING 12/19/22

2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |

Newburgh does not have the significant new development. Other cities are attracting businesses that create jobs at rapid rate while Newburgh is still stuck in a ten-year pattern of false starts. The U.S. is possibly heading into a recession. Let's send the message that Newburgh is not. We are marching forward, building homes, growing businesses, and inspiring entrepreneurships.

Lastly, and I feel most importantly, jobs, jobs, jobs. I want the Board to know that building in Newburgh has been one of the most difficult and challenging experiences of my life. The operational costs, the taxes, and the general resistance to change are just a few of the hurdles here. Infill projects, such as these two new buildings cannot happen without IDA support.

Preservation projects, though challenging, benefit from historical

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

incentives available to them. New construction does not. I hope you will make the right decision and fully support this PILOT. I am transparent about my progress and my intentions. I am also available to speak to any of the board members whenever they would like. Thank you, everybody, very much.

BY MR. MARLON RAMOS:

Thank you. Michael LeBron.

Good evening, everybody.

BY MR. MICHAEL LEBRON:

Michael Lebron. I live with my wife at 279 Grand Street. We are just moving in. That is our third project where we have been restoring and rehabilitating and repurposing some of the historic buildings here in the City of Newburgh. I don't want to take up anymore time. Myself here, I

agree with a bunch of what's already been said. I'm sure everybody wants to get out to eat dinner. I just want

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

to voice my support for the project generally. I think it's an excellent example of repurposing existing buildings and providing for many of the things that the City needs in an equitable and meaningful way.

I do have some questions about how the numbers arrived at for the PILOT, but no questions are being answered here at this point, so I will just submit them in writing and I look forward to your response. Thank you.

BY MR. MARLON RAMOS:

Thank you. Liz Vega Lebron.

BY MS. LIZ VEGA LEBRON:

So, I'm his other half. And I just came from a construction site.

And we have a great carpenter and a great floor guy. And they're all from Newburgh, so come talk to me.

I want to talk about trust.

Because you ended your presentation

with that, and I think it's important.

So, how do you trust? And one of the

best ways is to look at a track So, your tenant was someone record. who was a widow, an entrepreneur, and she came to Newburgh looking for a space where she could run her business and also live there. And for months, I could find her nothing. Today, she lives in your space where she has a fantastic apartment. Her means are limited, you know, she runs her business, but it's a small business. She would not be able to do the work that she's passionate about without your project. So, when we think about trust, we think about what's been done in the past and your track record. there you have it. Thank you.

BY MR. MARLON RAMOS:

Thank you. Bill Fioraranti.

BY MR. BILL FIORARANTI:

Thank you. I'm going to kind of stand to the side because I want to speak to the audience but also really to this board. My name is Bill

IDA HEARING 12/19/22

2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 | 14 |

Fioraranti. I live at 262 Montgomery Street. I am here in support of this project. I think it's an absolute no brainer. And I will explain why. I will start with a personal anecdote. My wife Elizabeth and I moved here eight years ago now to be part of Newburgh. To be a part of what's happening here, to be beautiful, safer, and to allow everyone here to be able to thrive certainly more than they are. We want to be a part of that.

We want to build a family as well. We have now, since we moved here, a five-year old and a ten-month old. My five-year old --- incredible, right? They grow up fast. My five-year-old was going to a daycare and my wife or I would take her every day and we drop her off at the daycare and they shut that door and we know that's she's safe and sound.

We went through a big

transition this year because she started elementary school here in the City, and she goes on a bus. And I didn't quite anticipate it, but that lack of control you have when you put her on that bus and she just goes driving around the City.

Now, look, I defend Newburgh to all my friends from outside of the City and such all the time about how it's much safer than people realize, and this, that and the other. And we don't have all any of that. But when it's your kid, it's a little different. And there is one indelible image I have that really, I think, caused that anxiety for me, and it's William Street. And it's that image of I think it was multiple school buses driving down the street there on William Street and bullets flying by the bus because of what's happening down on William Street. And if you don't know, and I think most people

do, it's a war zone. It's one of the darkest, scariest, areas of the City. And I'm not sure what the fix is to it, aside from the FBI coming back in here and SWAT teams and whatnot. don't think those are the solutions really we want. These are the kind of solutions we want. A development like this without any other benefits.

Just the fact that this happens --- pardon me, Michael. the fact that it would happen and bring this scale of development, and this number of individuals and families here, and commercial activity will start to transform that whole area down there. This is the kind of project that does it. And costs the City nothing, by the way. We talked about special districts, police and fire.

A lot of people don't realize, I happen to be in the business, but with tax incentives like this, they

2

cannot be exempt from special district taxes like police and fire. So they can save on all the rest of the taxes, but they have to pay full boat on all of those. So, that's important to know, that they are going to be contributing towards the police and fire. But for virtually no other resources from the City to have that kind of transformative experience from this development, that is why it's a no brainer.

In addition, it is an adaptive reuse of a historic building that could get torn down or rot otherwise. That's going to happen. Again, you are going to see activity as a result. We are going to be getting new property taxes. This property has never been on the tax rolls, but even during the term of the PILOT, they are going to be contributing \$3 million in new taxes. And then in other kinds of taxes, Michael estimated we are

talking over \$6 million dollars.

That's all without a project like that or things stay the way they are. Or if they don't get a PILOT and they keep it as a storage warehouse or something like that, we don't get any of that. This all happens with this project happening.

I've seen the pro forma for the financials. They made it clear themselves, MRB, everyone else attests to it. This project doesn't happen without the incentives. So again, how could we not do whatever it takes to help make this happen. All the ancillary benefits, the commercial activity, it's all gravy to us. it's a wonderful development. And it does matter who they are. I'm glad a lot of people have said that. are accessible. Ray made a great point. You can get to these gentlemen and talk to them. They are people that care about Newburgh. It doesn't

Good evening, everybody. I will try to be short. My name is Judy Thomas. I live at 32 Benkard Avenue, the corner of South Lander Street. wholly support this project. I have been driving past this building on Washington Street almost daily for the past nine years. And I've ridden my bike there, and I've stopped. I've look at this property. looked at this building, this midcentury modern building that I was so --- the artist in me said, oh, please, let's save this building. Somebody has got to save this building. can we save this building. Is it just going to get torn down and another cookie cutter project put up.

And I saw the early renderings of this a year ago when they went before the Zoning Board. And I was just God smacked. The beauty. The

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

thoughtfulness. The repurposing. The park that goes through. This corner is going to be transformed and I am looking forward to it. Please support the PILOT. Please support this project.

Thank you, Sisha. You're a visionary. You're brave, and smart, and wonderful. And the passion that you put into your projects, I wish everybody had that. Thank you.

BY MR. MARLON RAMOS:

Thank you. Bryan Luna.

BY MR. BRYAN LUNA:

Hi everyone. So, two comments. If the overwhelming support is why you love Newburgh, I'm going to be the reason you hate Newburgh. And two, if this doesn't involve a brain, then I don't have one. So, I actually attended the little community session you had like a year-and-a-half ago where you first introduced the project. Like six people showed up.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

_

•

It was really tragic. But thank you for doing that.

The brewery, I'm huge fan of it. I'm not a fan of the 15-year PILOT. I believe it was discussed that 10, 12 year options were also explored. I don't really know what feasible means, or within reasonable like consideration. Like can I get a percentage on that? Because that's just a word to me. A 15-year PILOT is excessive. It's only getting \$3 million over the course of those 15 is --- it just doesn't sit right with me.

I'm aware that like --- yeah, one of my concerns is also parking because parking is absolutely horrible in Ward 2. It's getting progressively horrible. I know that because I own in Ward 2. My family owns in Ward 2. The same streets that we are talking about that are war zones, I walk it, I promise you, it's not.

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

Another thing is, they are going to be developing the two new buildings, I understand that. They are not going to displace anybody. I understand that. That's the direct impact. That's not displacing anybody. But I want to know how that's going to integrate with the community, like what are the indirect impacts of that.

Because I'm very familiar with the Wireworks project. And I spoke to you back then that the problem I had with your Wireworks project is that it does not feel like it's part of the community. It's very isolated. And that's my problem with it. So, I'm concerned how that's going to impact their neighbors and my neighbors. Like how that's going to integrate with us. We want to reshape that corner, okay, but is that corner going to be welcoming to the existing members there. So, I just pose those

Mary T. Babiarz Court Reporting Service, Inc. Phone: (845) 471-2511

IDA HEARING 12/19/22

2 questions.

1

3

4

I also would like to know, again, if a 10- or 12-year PILOT really is doable, or if not --- I'm okay with the market housing. I --everybody here stated that it's absolutely needed. I understand that. I agree with that statement. maybe more up front, 3 million for a 15-year PILOT is just not sitting well with me at all. And nobody has provided numbers as to how much you are actually going to gain from this. I don't know what reasonable is. don't know what any of that means. That's not a number to me. So, thank you for your time.

BY MR. MARLON RAMOS:

So, thank you for all the comments. What I would add to Bryan and anybody that would like, these reports are public. And if you take your time, they're somewhat digestible. So, I would invite people

IDA HEARING 12/19/22

to go to the website, download these reports. They answer a lot. What we do here is do this work. And obviously now be very open to the community. All comments are welcome, but if anybody wants to be a little more informed, all information is available for anybody.

IDA EXEC. DIR. CHERISSE VICKERS:

And I'll see if we can work on putting the presentations from tonight, especially Michael N'dolo's presentation, we can try and get that on the website.

So, if there are no further comments, then I will close this public hearing at 7:19 p.m.

The IDA will have our regular board meeting after this, so we are going to stay behind.

(TIME NOTED: 7:19 P.M.)
