That the Planning Board makes the following findings:

1. The Planning Board has jurisdiction to review and approve the application.
2. The Applicant made an application to the Planning Board for Site Plan approval to construct a warehouse on vacant land (Warehouse). The Applicant filed a Land Development Application and various exhibits in a manner and form acceptable to the City Engineer, City Planner, and Planning Board. The Application and subsequent submissions were reviewed by the Planning Board and made available to the public.
3. The subject property is located in the Industrial (I) zone.
4. The proposed use is allowed pending Site Plan approval from the Planning Board.
5. The Planning Board first reviewed the application materials for the completeness on October 19, 2021. The Planning Board deemed the application substantially complete on July 18, 2023.
6. The Planning Board, pursuant to City Code Section 300-90, waived a public hearing at its regular meeting on December 21, 2021.

7. The action is a Type I action pursuant to the State Environmental Quality Review Act (“SEQRA”). The Applicant completed and filed Part I of the Full EAF, pursuant to the State Environmental Quality Review Act (“SEQRA”). The Planning Board completed Parts 2 and 3 of the Full EAF. The Planning Board declared its intent to act as Lead Agency for environmental review on October 19, 2021. The Planning Board declared itself as the Lead Agency for the environmental review of the Project pursuant to 6 NYCRR 617.6 on December 21, 2021. The Applicant consented waived any deadline for the Planning Board to make a SEQRA determination on December 21, 2021. The Planning Board determined, based upon an examination of the Full EAF and other available supporting information and considering the magnitude and importance of each area of environmental concern, and based on the City's knowledge of the location of the Project, that the granting of the application would not have a significant adverse environmental impact, would not require the preparation of a Draft Environmental Impact Statement. The Planning Board further found no areas of potentially large impact of environmental concern that cannot be mitigated, and as such, issued a Negative Declaration pursuant to SEQRA with respect to the impact of the Project upon the environment on May 16, 2023. Copies of the Full EAF parts 1, 2 and 3 are attached as Exhibit A.
8. The Planning Board found that the City of Newburgh Zoning Board of Appeals approved necessary area variances for the project on June 27, 2023.
9. The Planning Board found, based on a review of the materials submitted, representations made by the Applicant, and discussions had at the Planning Board meetings, that the Site Plan should be approved as submitted, subject to conditions as articulated below.

LET IT BE FURTHER RESOLVED

That the Applicant’s approval is subject to the following conditions:

1. The Applicant shall satisfy all comments set forth in the Informational Inspection Report of the Building Inspector, dated May 10, 2021;

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]

Project :	2021-18
Date :	July 18, 2023

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “Yes” to a numbered question, please complete all the questions that follow in that section.
- If you answer “No” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Project Number: PB 2021-18
Property Address: 700 South Street (f/k/a 700-768 South Street)
Date of Action: May 16, 2023
Supplement to SEQRA Full EAF, Section III

The applicant for the project proposes to construct a 416,320 square foot warehouse on vacant land (Warehouse).

The entire parcel size is 49.60 acres. The parcel is what is/was commonly known as the Dupont-Stauffer Landfill, which was previously classified as a State Superfund Site. Cleanup activities were performed by Stauffer Management Company, LLC and E.I. DuPont deNemours and Company with oversight provided by NYSDEC. Following site cleanup, NYSDEC reclassified the site from Class 2 (significant threat to public health or environment - action required) to Class 4 (site properly closed – requires continued management). Thus, the property is subject to an ongoing and Site Management Program (“SMP”) overseen by the NYSDEC.

The Planning Board found there was significant participation from both the NYSDEC and NYSDOT in terms of plan review and comment for purposes of mitigating environmental concerns and impacts. The Planning Board found that many NYSDEC concerns were either addressed in the course of Site Plan revisions or will be addressed with compliance with the SMP. The Planning Board found that NYSDOT and traffic concerns were addressed after review of a traffic study and incorporation of traffic mitigation measures into the Site Plan. Further, any proposed work will require compliance with NYSDOT work permits by virtue of the project’s location to South Street.

The project will not disturb any plant or animal species in a significant manner. The project will require energy and other resources to attain compliance with State and Local building code regulations. However, this usage will be short term in nature and in line with construction projects of this type.

The project acknowledges the prohibition of groundwater discharge into the Gidneytown Creek, and the project does not propose any such discharges. Surface water runoff will be managed through the implementation of an acceptable SWPPP.

On-site parking is proposed for the project, but at a level that is approximately one-third of the required on-site parking for the requirements in the applicable zone. The project also proposes to install sidewalks on South Street, end-to-end of the property line, in order to further promote pedestrian traffic. There are/will be sufficient and adequate parking options available in the neighborhood and the proposed use will not adversely affect traffic or parking in the district.

The proposed project will have no impacts on flooding, air quality, agricultural, or aesthetic resources in/around the City, as the location of the project is in an industrial zone designed for uses such as the warehouse proposed by the applicant. The proposed action is not in, or adjacent to a historic or archaeological resource. The proposed project also will not impact open space or recreation opportunities for the public.

The proposed plan includes details for environmental mitigation in a manner and form acceptable to the Planning Board and the City Engineer.

Upon completion, and once occupied, there will also be a minor increase in energy use, water use, and sewer systems commensurate with the proposed uses. The proposed uses are commensurate with the community objectives and aesthetic, and in line with the promotion of the types of uses contemplated by the City's current zoning regulations. The Planning Board determines that there will be no significant long term impact on energy use, water, or sewer supply and/or systems.

In sum, the Planning Board determined that there would be no significant long term impact on energy use, water, or sewer supply and/or systems based on the size and scope of the project, and that any environmental concerns were adequately mitigated by the applicant's proposed plan and/or its consent to comply with NYSDOT, NYSDEC, City Engineer, and City Planner comments.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

See attached.

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: Type 1 Unlisted

Identify portions of EAF completed for this Project: Part 1 Part 2 Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the City of Newburgh Planning Board _____ as lead agency that:

A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.d).

C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF CITY OF NEWBURGH INDUSTRIAL DEVELOPMENT AGENCY, AS FOLLOWS:

Section 1. All action taken by the Chairperson and/or any Member or staff of the Agency with respect to the Public Hearing with respect to the Project and the requested Financial Assistance is hereby ratified and confirmed.

Section 2. The law firm of Whiteman Osterman & Hanna LLP is hereby appointed Agency Counsel to the Agency with respect to all matters in connection with the Project. Agency Counsel for the Agency is hereby authorized, at the expense of the Company and Assignee, to work with the Company and Assignee, counsel to the Company and Assignee, and others to prepare, for submission to the Agency, all documents necessary to affect the transactions contemplated by this Resolution. Agency Counsel has prepared and submitted an initial draft of the Agency Documents to staff of the Agency.

Section 3. The Agency hereby finds and determines that:

(A) By virtue of the Act, the Agency has been vested with all powers necessary and convenient to carry out and effectuate the purposes and provisions of the Act and to exercise all powers granted to it under the Act;

(B) The Project constitutes a “project,” as such term is defined in the Act;

(C) The Project site is located entirely within the boundaries of the City of Newburgh, Orange County, New York;

(D) It is estimated at the present time that the costs of the planning, development, acquisition, construction, and installation of the Project Facility (collectively, the “Project Costs”) will be approximately \$53,454,900.00.

(E) The completion of the Project will not result in the removal of a plant or facility of any proposed occupant of the Project Facility from one area of the State of New York to another area in the State of New York and will not result in the abandonment of one or more plants or facilities of any occupant of the Project Facility located in the State of New York;

(F) The Project Facility does not constitute a project where facilities or property that are primarily used in making retail sales of goods and/or services to customers who personally visit such facilities constitute more than one-third of the total cost of the Project, and accordingly, the Project is not prohibited by the provisions of Section 862(2)(a) of the Act, and (2) accordingly the Agency is authorized to provide financial assistance in respect of the Project pursuant to Section 862(2)(a) of the Act;

(G) The Agency has determined: (i) the Project is located in a “highly distressed area” (as defined in the Act); (ii) (1) the Project Facility will provide necessary infrastructure and other opportunities for area employers and businesses, (2) the completion of the Project Facility will have a positive impact upon the creation, retention and expansion of employment opportunities in the City of Newburgh and in the State of New York; (3) the completion of the Project will

assist in promoting employment opportunities and assist in preventing economic deterioration in the City of Newburgh and in the State of New York; (4) the acquisition, construction and installation of the Project Facility is essential to the creation of new employment opportunities and is essential to the prevention of economic deterioration of businesses and neighborhoods located in the City of Newburgh; (5) the undertaking of the Project will serve the public purposes of the Act by preserving and creating permanent private sector jobs in the State of New York; (6) the Project will create product use of vacant industrial land in the City of Newburgh; and (8) the granting of the Financial Assistance by the Agency with respect to the Project will promote and maintain the general prosperity and economic welfare of the citizens of the City of Newburgh, Orange County, New York and the State of New York and improve their standard of living, by providing a commercial project, thereby serving the public purposes of the Act;

(H) The Agency has reviewed all information it has received relating to the Project including without limitation the Application and related supplemental materials submitted by the Company, the Public Hearing Report. After consideration of such information, documents, comments and opinions, the Agency finds as follows:

- (i) The Agency Documents will require that the Company, or its successors or assigns, comply with any requirements of the City Planning Board and Department of Buildings prior to the receipt of any Financial Assistance; and
- (ii) Special Districts will not be affected by the PILOT Request; and
- (iii) In the event the Company cancels or withdraws from the Payment in Lieu of Tax Agreement prior to its termination as described in the closing documents with the Agency, the Uniform Project Benefits Agreement will provide for the recapture of the real property taxes which would otherwise have been due in consideration of the Project; and
- (iv) By reason of the Pilot Request, the Agency reviewed the CBA and the Test of Reasonableness Report prepared by the Agency's consultant. The Test of Reasonableness Report concludes that the requested Financial Assistance is reasonable and will provide the Company (A) a reasonable, risk-adjusted internal rate of return; and (B) permit an acceptable debt service ratio coverage for the Project for financing purposes.

(I) The Project should receive the Financial Assistance in the form of exemption from certain (i) sales and use taxes; (ii) real estate transfer taxes and mortgage recording taxes; and (iii) real property taxes based on (1) the Company's statement that the Project will not proceed without such Financial Assistance, including the PILOT Request, and (2) the CBA and Test of Reasonableness undertaken by the Agency and the description of expected public benefits to occur as a result of this Project, as described on **Exhibit A** attached hereto and failure

by the Assignee to meet the expected public benefits will result in a recapture event, as described on **Exhibit B** attached hereto; and

(J) The Project will be subject to the Agency’s Local Labor Policy (the “Labor Policy”). In accordance with such Labor Policy, and the practice of the Agency, the Company will deposit with the Agency, together with the execution of the Agency Documents, a sufficient amount (not to exceed \$25,000) for the payment of future fees incurred by Lowke Brill Consulting Group, Inc., the Agency’s independent monitor (the “Agency Independent Monitor”) for its Project compliance review under the Labor Policy consistent with the Agency Independent Monitor’s contract with the Agency.

(K) The Company will submit such evidence supporting the benefits provided to the Project annually as required by the Agency Documents and the State Authorities Budget Office including, without limitation, certified payroll reports. The Agency reserves the right to utilize the Agency Independent Monitor in reviewing any and all annual compliance information and records. The fees of the Agency Independent Monitor for the annual review shall be paid annually by the Company and be in addition to the fees paid to the Agency Independent Monitor for compliance review of the Labor Policy.

(L) In accordance with the CBA, the projected total Financial Assistance provided to the Company for the Project is as follows:

<u>TYPE OF FINANCIAL ASSISTANCE</u>	<u>AMOUNT OF APPROVED FINANCIAL ASSISTANCE</u>
Sales and Use Tax Exemption Benefits	\$1,507,500

(M) It is desirable and in the public interest for the Agency to approve the Application and to enter into the Agency Documents.
